

ANNEX A : NATIONAL CLIMATE CHANGE STRATEGY 2012 (NCCS-2012) EXHIBITION

The National Climate Change Strategy 2012 (NCCS-2012) exhibition was launched by Mr Teo Chee Hean, Deputy Prime Minister, Coordinating Minister for National Security and Minister for Home Affairs and Chairman of the Inter-Ministerial Committee on Climate Change (IMCCC) at the Marina Barrage on 2 September 2012. The launch was held in conjunction with the Singapore Green One 2012 (G1 2012) organised by the Singapore Environment Council.

2 The NCCS-2012 exhibition is part of the National Climate Change Secretariat (NCCS)' public education and outreach efforts to create climate change awareness and action, further to the launch of NCCS-2012 document in June 2012.

3 The theme of the exhibition is "*Our Green Home*". The exhibition provides information on Singapore's climate change plans, highlights the opportunities arising from climate change and the importance of individual and community actions to address climate change.

NCCS-2012 exhibition logo

4 This information is covered at four zones at the exhibition. The Dome, which marks the start of the exhibition journey, provides an overview on the science of climate change and its global impact. The Dome also features a short video clip produced by ITE College East students which won the third prize in the Junior College/Central Institute/Institute of Technical Education category of the National Climate Change Competition (NCCC) 2012 Short Film Challenge¹. The video, entitled *Carbon Footprints*, explains the impact of human activities on carbon emissions / climate change.

¹ The National Climate Change Competition (NCCC) is organised yearly by NCCS as part of our outreach activities to raise awareness on climate change among the youth.

The Dome, NCCS-2012 exhibition

5 Zone 1 of the exhibition provides information on the impact of climate change on Singapore, Zone 2 features Singapore's mitigation and adaptation measures as well as green growth opportunities, and Zone 3 looks at individual and community actions to address climate.

6 Following the launch, the exhibition will rove to selected libraries, community clubs and shopping malls in the heartlands from September 2012 to January 2013. The schedule of the roving roadshows is at the Appendix below.

PARTNERSHIP CORNER

7 The NCCS-2012 launch exhibition at Marina Barrage and roving roadshows at some venues (see Appendix) will incorporate a Partnership Corner where selected People, Public and Private (3P) sector partners will feature climate change-related initiatives and projects, at pre-allocated booths. The Partnership Corner showcases the diverse landscape of climate change-related initiatives in Singapore, as well as ground-up efforts on climate change.

8 The strong presence and support of partner organisations at the NCCS-2012 exhibition also show the importance of partnerships and engagement in the national effort to address climate change.

9 The 3P partners participating at the launch exhibition are past recipients of the President's Award for the Environment or organisations with strong climate change-related outreach programmes. Broad information on their projects is as follows :

Partner Organisation	Project Showcased at Partnership Corner
WWF Singapore	WWF will showcase its initiatives including <i>Earth Hour</i> , which encourages people to switch off their lights for an hour; <i>Saving Our Forests</i> to curb biodiversity loss; and <i>Saving Our Oceans</i> to raise awareness on the sustainability of oceans and the

Partner Organisation	Project Showcased at Partnership Corner
	depletion of marine species.
Senoko Energy	A multi-agency taskforce chaired by the Energy Market Authority (EMA) and the Land Transport Authority (LTA) has launched an electric vehicle (EV) test-bed to evaluate the feasibility of introducing EVs in Singapore. Senoko Energy, as an early adopter of the EV project, will share interesting facts about EVs from a consumer's perspective, such as how far an EV can travel on a single charge; whether operating an EV is safe etc.
Woodgrove Secondary School	The school collaborates with various partners and organisations to create resources for environmental education and to provide capacity-building opportunities for staff and students. The school will showcase its environmental education (Teaching & Learning) programmes and its environmental outreach projects to the community and youths.
Nan Hua High School	The school will showcase its <i>School Total Environment Education Programme (STEEP)</i> , which has been in place since 2003, that allows it to work with its partners to promote environmental awareness in the school and community. The school actively works with external organisations, with focus on four areas: water; environment; pollution; and public health issues. The school will also highlight its approach to environmental education, which is based on 3Is : I ntegration, I mpact and I nnovation. Environmental projects are integrated school-wide and with various environmental agencies. The school's approach to environmental education has had an impact on students from other schools and the public. Its innovation includes overseas learning journeys, the Integrated Science module and Sustainable Environment programme for Secondary 2 students.
Southwest Community Development Council (SWCDC)	SWCDC will showcase its programmes under the <i>South West Climate Change Strategy</i> which was launched in January 2012. The programmes are grouped under three strategic thrusts, namely (i) reducing energy consumption; (ii) promoting resource conservation; and (iii) promoting environmental volunteerism. SWCDC will also showcase the collective efforts by residents over the years towards mitigating climate change.
Northwest Community Development Council (NWCDC)	NWCDC will showcase two initiatives (i) <i>Reduce@North West</i> , an initiative to educate and encourage residents to do their part in fighting climate change by reducing energy consumption.

Partner Organisation	Project Showcased at Partnership Corner
	Residents are educated on tips to reduce energy usage and rewarded for their efforts at the same time; and (ii) <i>Recycle@North West</i> , which aims to encourage active recycling among residents. NWCDC and its partners plan to open at least 15 recycling points in FY2012 and the 3-year target is to set up 45 recycling points in the district, manned by 2,000 volunteers with outreach to 90,000 households. Currently, there are seven recycling points, manned by more than 200 volunteers on a monthly basis.
SMRT Corporation Ltd	SMRT will showcase its sustainable development practices in its operations and infrastructure for better energy, water, air and waste management and the promotion of public transport. Some of the initiatives that it will showcase include (i) <i>SMRT is Green</i> , which focuses on sustainable development by promoting public transport and green practices amongst business partners, customers and staff; (ii) <i>Go Green with SMRT</i> , a public education campaign which was launched in 2008 to promote public transport as a green mode of travel; and (iii) collaborations with community partners such as the <i>Go Green Seed Fund@South East</i> , which aims to promote eco collaborations between community partners.

10 Other 3P partners who will participate in the roving roadshows following the launch exhibition include the National Youth Achievement Award Council and Singapore Polytechnic.

11 For more information and updates on the roving roadshows, the public can visit the event Facebook page, www.Facebook.com/climatechangeSG.

APPENDIX : SCHEDULE OF NCCS-2012 ROVING ROADSHOWS

Date	Time	Venue	District
2 September 2012	0900 - 1400 hours	Marina Barrage (Singapore G1 event) 8, Marina Gardens Drive (with Partnership Corner)	Central

Date	Time	Venue	District
7 - 9 September 2012	1000 - 2100 hours	HDB Hub Mall Lorong 6 Toa Payoh (with Partnership Corner)	Central
15 - 16 September 2012	1100 - 2100 hours	City Square Mall 180 Kitchener Road (with Partnership Corner)	Central
17 - 23 September 2012	1100 - 2100 hours	Jurong Regional Library* 21 Jurong East Central 1	Southwest
